Dreadful Accident.

A dreadful accident occurred, the 21st inst. at the store of Capt. E.A Krutzner, about two miles above Milton. Two young men named Wm. Emmans and Augustus Jodon, went out after pigeons, and after returning to the store of Capt. Keutsner. indulged in going thro' military evolutions with two guns then in the room and which they thought were unloaded. Mr. Jodon pulled the trigger of his gun while pointed at Emmans, when a load was dicharged and entered the brain of Emmans alove the left eye, killing him instantly. The distress of Jodon at the effect produced, was truly pitiable.

The deceased was 23 years old, and has left behind him a widowed mother and a younger brother.

May not this be a sufficient warning against the silly if not criminal practice of handling fire-arms unnecessarily-carelessly-or in wanton sport?

The Summer Session of the LEWISBURG ACADEMY.

WILL commence on Monnay the 29th of April. Instruction will be given, as formetly, in all branches necessary to a thorough Academic course. Our endeavor shall not be simply to communicate knowledge, but to excite the youthful mind to act for itself. When this is fully attained, the progress of the student becomes at once certain and rapid. The kind of learning which most of our youths in this country need, is that solid literature, which, while it matures their minds, prepares them sies for the practical duties of life. Composition and Declamation will receive their

full share of attention—porticularly the former.
The Primary Department shall have our special care. From the disposition manifested to sustain the Institution, the subscriber feels stimulated to renewed exertions.

The Session will consist of two Terms of 11 weeks each—a short vacation intervening. Twi-tion—\$6 for the common branches, \$8 for the higher English, and \$10 for Languages, per Session—per Term, one half. JNO. RANDOLPH. March 27, 1850.

Sears' New Pictorial Family Magazine, FOR 1949—Embelfished with numerous Engravings—Price \$1,00, or 121 ets

per Number.
This work is partly on the plan of the English Penny Magazine. Published at 128 Nassau street, New York city; chied by Robinst Sears. It is intended to furpish, at a cheap rate, a variety of pleasing and instructive matter for persons of diffe rent classes and ages, particularly in those departments of KNOWLEDGE which are of most general interest and concern, and are best calculated to enlarge the mind, gratify and circule the taste, direct to the asetul occupation of time, and improve the character. Everything of an opposite tendency will be carefully excluded. The contents consist of a variety of articles on the fol-lowing subjects: Useful arts, curionities, natural history, science, literature, juvenile

natruction, travels, antiquities, poetra &c. The recent multiplication of various pubications, particularly of cheap novels and ecutious works of a bad moral tendency, has justly alarmed the friends of virtue, good order, and the laws; for it is evident that their influence must be extensive in proportion to their circulation-and this is known to be unfortunately great. Too often it is the fact, that even good men, who perceive something of their cyil tendency, lead heir countenance to them, not only by purchasing and reading them, but even by admitting them into their families. The excuse has often been made, that they are convenient and cheap, and that such publications

as they would approve are scarce.
It is the great object of "Sears' New Picorial Family Magazine," to supply the want complained of, and all the natter it contains, whether original or selected, is lesigned to attract, instruct, and improve. The paper is white, the type clear, and the mechanical execution very neat. The size is large imperial octavo, double columns, 40 or 50 pages to a number; and being wholly occupied with reading matter and elegant wood engravings (to the exclusion of advertisements) affords an unusually cheap, pleasing, and instructive family periodical.

Dr. Locke is a regular graduate of the Bultimore College of Dental Surgery, besides which qualification he has had the advantage of five years' experience in the practice of his profession in Pennsylvania, Ohio, Illinois, Wisconein, and the city of Baltimore, Md. Dr. L. takes all the Journals of the day which

contain new and useful information in the line of his profession; and from his arrangements with the best manufacturers of teeth, gold foil, &c. will always keep on hand for the accommo dation of his customers the very best quality of all the materials used in his business.
